🌐 LinkedIn 🐙 Github 🔗 Portfolio

### Profile

Frontend Web Developer with 3+ years of experience building responsive, high-performance web applications using React JS, Next JS, Tailwind CSS, and Mantine UI. Skilled in creating user-focused interfaces with an understanding of Node.js and GraphQL for seamless full-stack collaboration.

### Professional Experience

#### Inseed Tech Pvt Ltd

Frontend developer 

02/2024 – present  
Kathmandu, Nepal

- Developed modular, reusable layouts in a Next.js application using Experiences by Contentful Studio.
- Enhanced application quality by automating E2E testing with Cypress, reducing manual testing efforts.
- Implemented error monitoring with Sentry, leading to a 30% reduction in unresolved issues.
- Optimized data-fetching workflows using GraphQL, improving API call efficiency by 15%.
- Reduced page load times by 30% through code-splitting and lazy loading.
- Delivered a mission-critical feature ahead of schedule, increasing user satisfaction by 15%.
- Monitored website performance metrics using tools such as Google Analytics and Pingdom.

#### Virtual Gravity

Frontend Developer 

07/2022 – 02/2024  
Kathmandu, Nepal

- Delivered 10+ feature enhancements and bug fixes per sprint, improving overall team efficiency by 30%.
- Implemented state management using Redux Toolkit, enhancing data flow and application scalability.
- Developed reusable components that can be used in future projects with minimal effort.
- Integrated front-end code with server-side code to implement dynamic pages.
- Collaborated with cross-functional teams to ensure seamless integration of features and functionalities.
- Contributed to optimizing the fitness app, improving user experience, and engagement by 20%.
- Debugged existing code to identify and fix bugs or performance issues.

- Resolved 15+ Jira tickets per sprint, contributing to sprint completion 20% ahead of schedule.

## Nep Tech Pal Pvt. Ltd

09/2021 – 05/2022

Junior Frontend Developer 

Pokhara, Nepal

- Led the end-to-end development of a dynamic website for Footstep Consultancy, using React.js as the core front-end framework.
- Implemented React Query with Axios to enhance data fetching, caching, and state synchronization.
- Utilized Contentful to optimize content management, enabling efficient creation, editing, and publication.
- Implemented React Hook Form to streamline form management and validation.
- Implemented secure authentication by leveraging NextAuth after in-depth learning.
- Leveraged React Helmet to dynamically update page titles and meta tags for SEO optimization.
